# Multi Function Pasta Attachment **MULTI PASTA**

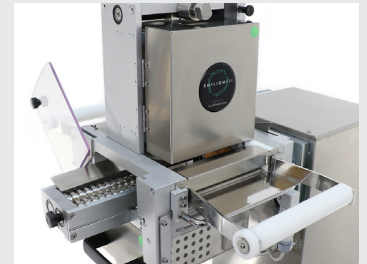

by La Monferrina

Interchangeable ravioli  
moulds

Optional gnocchi attachment

Optional cutter attachment

The Multi Pasta is a multi purpose attachment for select La Monferrina pasta machines that greatly increases the versatility and selection of your pasta production. The Multi Pasta has the ability to make fresh ravioli, automatically cuts pasta sheets to width and length, and makes gnocchi with optional attachments. The Multi Pasta comes with your choice of one standard ravioli mould. Interchangeable ravioli moulds and cutting cassettes allow for a large variety of pasta production. The Multi Pasta works with the following La Monferrina machines, P6, P2 DV, P2 DVE, PNuova, and Cilindro.

## FEATURES

- › Produces Ravioli in various shapes and sizes with optional interchangeable Ravioli Moulds
- › Produces Cut Pastas in various widths and adjustable length with the optional Cutter Attachment and Cutting Cassettes
- › Produces Gnocchi with the optional Gnocchi Attachment

## OPTIONAL ATTACHMENTS

1. **Gnocchi Attachment:** Make fresh potato-flake based Gnocchi with the optional attachment that mounts onto the Multi Pasta
2. **Cutter Attachment:** Automatically cut flat pastas to length with the optional cutter attachment. Optional interchangeable cutting cassettes determine the pasta width.
